

CHESAPEAKE BAY PROGRAM
WATER QUALITY GOAL IMPLEMENTATION TEAM

September 10, 2018 ACTIONS AND DECISIONS

Meeting Materials: [Link](#)

Action: Please respond to Lucinda and Dinorah by COB September 12th if there are any concerns regarding the FY2018 additional GIT funding project from the Forestry Workgroup.

Action: Peter Claggett will coordinate with the USWG, WWTWG, and AgWG to present state custom land use scenarios for workgroup input as soon as possible.

Action: Any questions regarding the “New Approaches to Target Sediment Sources and Management” presentation can be sent directly to Greg Noe, USGS, and Allen Gellis, USGS

Action: Mark Bennett will present the climate resiliency guidance to the management board later this week and will come back to the WQGIT for approval at the September 24th WQGIT call.

Action: The WQGIT will request additional time for review of the updated water quality management strategy and workplan (water quality outcomes included in the water quality management strategy and workplan are 2017 WIPs, 2025 WIPs, and Water Quality Standards Attainment and Monitoring).

Action: The WQGIT requests a track changes version of the water quality management strategy documents due to significant changes seen in the documentation as well as a clean version of the documents to submit comments.
