N=5,212 adult residents of the Chesapeake Bay Watershed; March 14-June 13, 2017
This document details the methods used to conduct this baseline study of stewardship behaviors and attitudes among a random sample of Chesapeake Bay Watershed residents.

The study was designed and conducted by OpinionWorks LLC of Annapolis, Maryland on behalf of the Chesapeake Bay Program. OpinionWorks' principal, Steve Raabe, has the lead investigator for this study, working under the direction of the Bay Program's Citizen Stewardship workgroup. For questions about survey methods or analysis, Steve can be reached at 410-280-2000 or steve@OpinionWorks.com.

## Sampling and Interviewing Method

This study was conducted by telephone. A total of 5,212 interviews were completed among adult residents of the Chesapeake Bay watershed between the dates of March 14 and June 13, 2017.

Both wireless and landline telephones were included in the sampling frame. The final survey sample included $43 \%$ wireless and $57 \%$ landline completions. The full questionnaire was translated into Spanish, and Spanish-language interviews were conducted as needed.

The interviews were conducted by live interviewers, who were supervised, monitored, and coached in opinion research best practices. The calls originated from a market research call center in Lafayette, Colorado, under OpinionWorks' direction. Interviews were conducted on all days of the week, between 5:00 and 9:00 pm weeknights, 10:00 am and 5:00 pm Saturdays, and 1:00 and 9:00 pm Sundays, Eastern time. Interviews were considered completed if the respondent proceeded through the entire interview, though respondents may have refused to answer individual questions. Interviews where participants terminated prior to completing the survey were thrown out.

Though the watershed's boundaries often do not match jurisdictional boundaries, counties and independent cities were included in the survey sample if the preponderance of their population lives within the Chesapeake Bay Watershed. A list of jurisdictions included in the survey sample is attached to this document.

This was a stratified sample, ensuring that a statistically significant number of interviews was conducted in each of the seven major jurisdictions within the Chesapeake Bay Watershed so that state results could be analyzed with confidence. The 5,212 survey interviews were stratified among the jurisdictions as follows:

| State | Sample | Sample \% | Pop Estimate* | Pop \% | Pop Weight |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Delaware | 402 | 7.7\% | 178,106 | 1.0\% | 0.12671716 |
| District of Columbia | 801 | 15.4\% | 658,893 | 3.6\% | 0.235269988 |
| Maryland | 1005 | 19.3\% | 5,895,053 | 32.3\% | 1.677667165 |
| New York | 400 | 7.7\% | 598,797 | 3.3\% | 0.428157897 |
| Pennsylvania | 1003 | 19.2\% | 3,634,327 | 19.9\% | 1.036351953 |
| Virginia | 1001 | 19.2\% | 6,990,135 | 38.4\% | 1.997264684 |
| West Virginia | 600 | 11.5\% | 267,705 | 1.5\% | 0.127611374 |
| Total | 5212 | 100.0\% | 18,223,016 | 100.0\% |  |

## Data Weighting

As illustrated in the table above, population weights were applied to the stratified survey sample to bring the jurisdictions into proper balance relative to their share of the population of the Bay's watershed. Population estimates were based on the United States Census Bureau's 2014 American Community Survey.

Additionally, demographic weights were applied to each state sub-sample. Though randomization was employed during the sampling process, some demographic groups remained under-represented once interviewing was completed. To correct for this, weights were applied to ensure that each state subsample was as reflective as possible of the demographic makeup of the population. Weights were applied to the following parameters: gender, age, and race and ethnicity. Once again, American Community Survey estimates were used.

The result of this sampling and weighting method is survey samples that are representative both Baywide and at the state level.

## Sample Distribution

Following is the Baywide distribution of the survey sample:

|  | Unweighted Sample Size | Weighted Percentage |
| :---: | :---: | :---: |
| Age |  |  |
| Less than 25 | 484 | 14\% |
| 24 to 34 | 900 | 18\% |
| 35 to 44 | 922 | 16\% |
| 45 to 54 | 1041 | 18\% |
| 55 to 64 | 1017 | 16\% |
| 65 to 74 | 554 | 10\% |
| 75 or older | 255 | 7\% |
| Prefer not to say/Not sure | 39 | 1\% |
| $\frac{\text { Educational Attainment }}{\text { Less than } 12^{\text {th }} \text { Grade }}$ | 204 | 5\% |
| High School diploma/GED | 1161 | 21\% |
| Some college/Associate's degree | 1354 | 26\% |
| Four-year degree/Bachelor's degree | 1319 | 26\% |
| Graduate work/Advanced degree | 1121 | 21\% |
| Prefer not to say/Not sure | 53 | 1\% |
| Children in the Household Yes | 1896 | 37\% |
| No | 2560 | 61\% |
| Prefer not to say/Not sure | 756 | 2\% |
| Home Ownership |  |  |
| Own | 3922 | 73\% |
| Rent | 1150 | 23\% |
| Prefer not to say/Not sure | 140 | 3\% |

N=5,212 adult residents of the Chesapeake Bay Watershed; March 14-June 13, 2017

| Housing Type |  |  |
| :---: | :---: | :---: |
| Single-family detached | 3595 | 69\% |
| Rowhouse/Townhouse/Duplex | 875 | 17\% |
| Multi-family | 649 | 13\% |
| Prefer not to say/Not sure | 93 | 2\% |
| Community Type |  |  |
| Urban | 1389 | 23\% |
| Suburban | 1437 | 39\% |
| Small town | 873 | 14\% |
| Rural | 1370 | 22\% |
| Prefer not to say/Not sure/No answer | 143 | 2\% |
| Family Involved in Agriculture |  |  |
| No | 4362 | 86\% |
| Prefer not to say/Not sure | 70 | 1\% |
| Religious Affiliation |  |  |
| Catholic | 709 | 15\% |
| Protestant/Other Christian | 2642 | 48\% |
| Jewish | 89 | 2\% |
| Other | 303 | 7\% |
| Not religious | 997 | 20\% |
| Prefer not to say/Not sure/No answer | 472 | 8\% |
| Race or Ethnicity |  |  |
| White | 3530 | 63\% |
| African-American or Black | 1050 | 19\% |
| Hispanic or Latino | 186 | 8\% |
| Asian | 121 | 5\% |
| Native American | 69 | 1\% |
| Mixed/Multiple (not specified) | 97 | 2\% |
| Others | 28 | *\% |
| Prefer not to say/Not sure | 261 | 5\% |
| Income |  |  |
| Less than \$25,000 | 420 | 7\% |
| \$25,000 to less than \$50,000 | 682 | 13\% |
| \$50,000 to less than \$75,000 | 824 | 15\% |
| \$75,000 to less than \$100,000 | 695 | 12\% |
| \$100,000 to less than \$150,000 | 807 | 16\% |
| \$150,000 or more | 805 | 17\% |
| Prefer not to say/Not sure | 979 | 20\% |
| Gender |  |  |
| Male | 2503 | 49\% |
| Female | 2709 | 51\% |
