Feedback on PFAS Quarterly Meetings

Would you support focused, quarterly PFAS meetings on the following topics ?

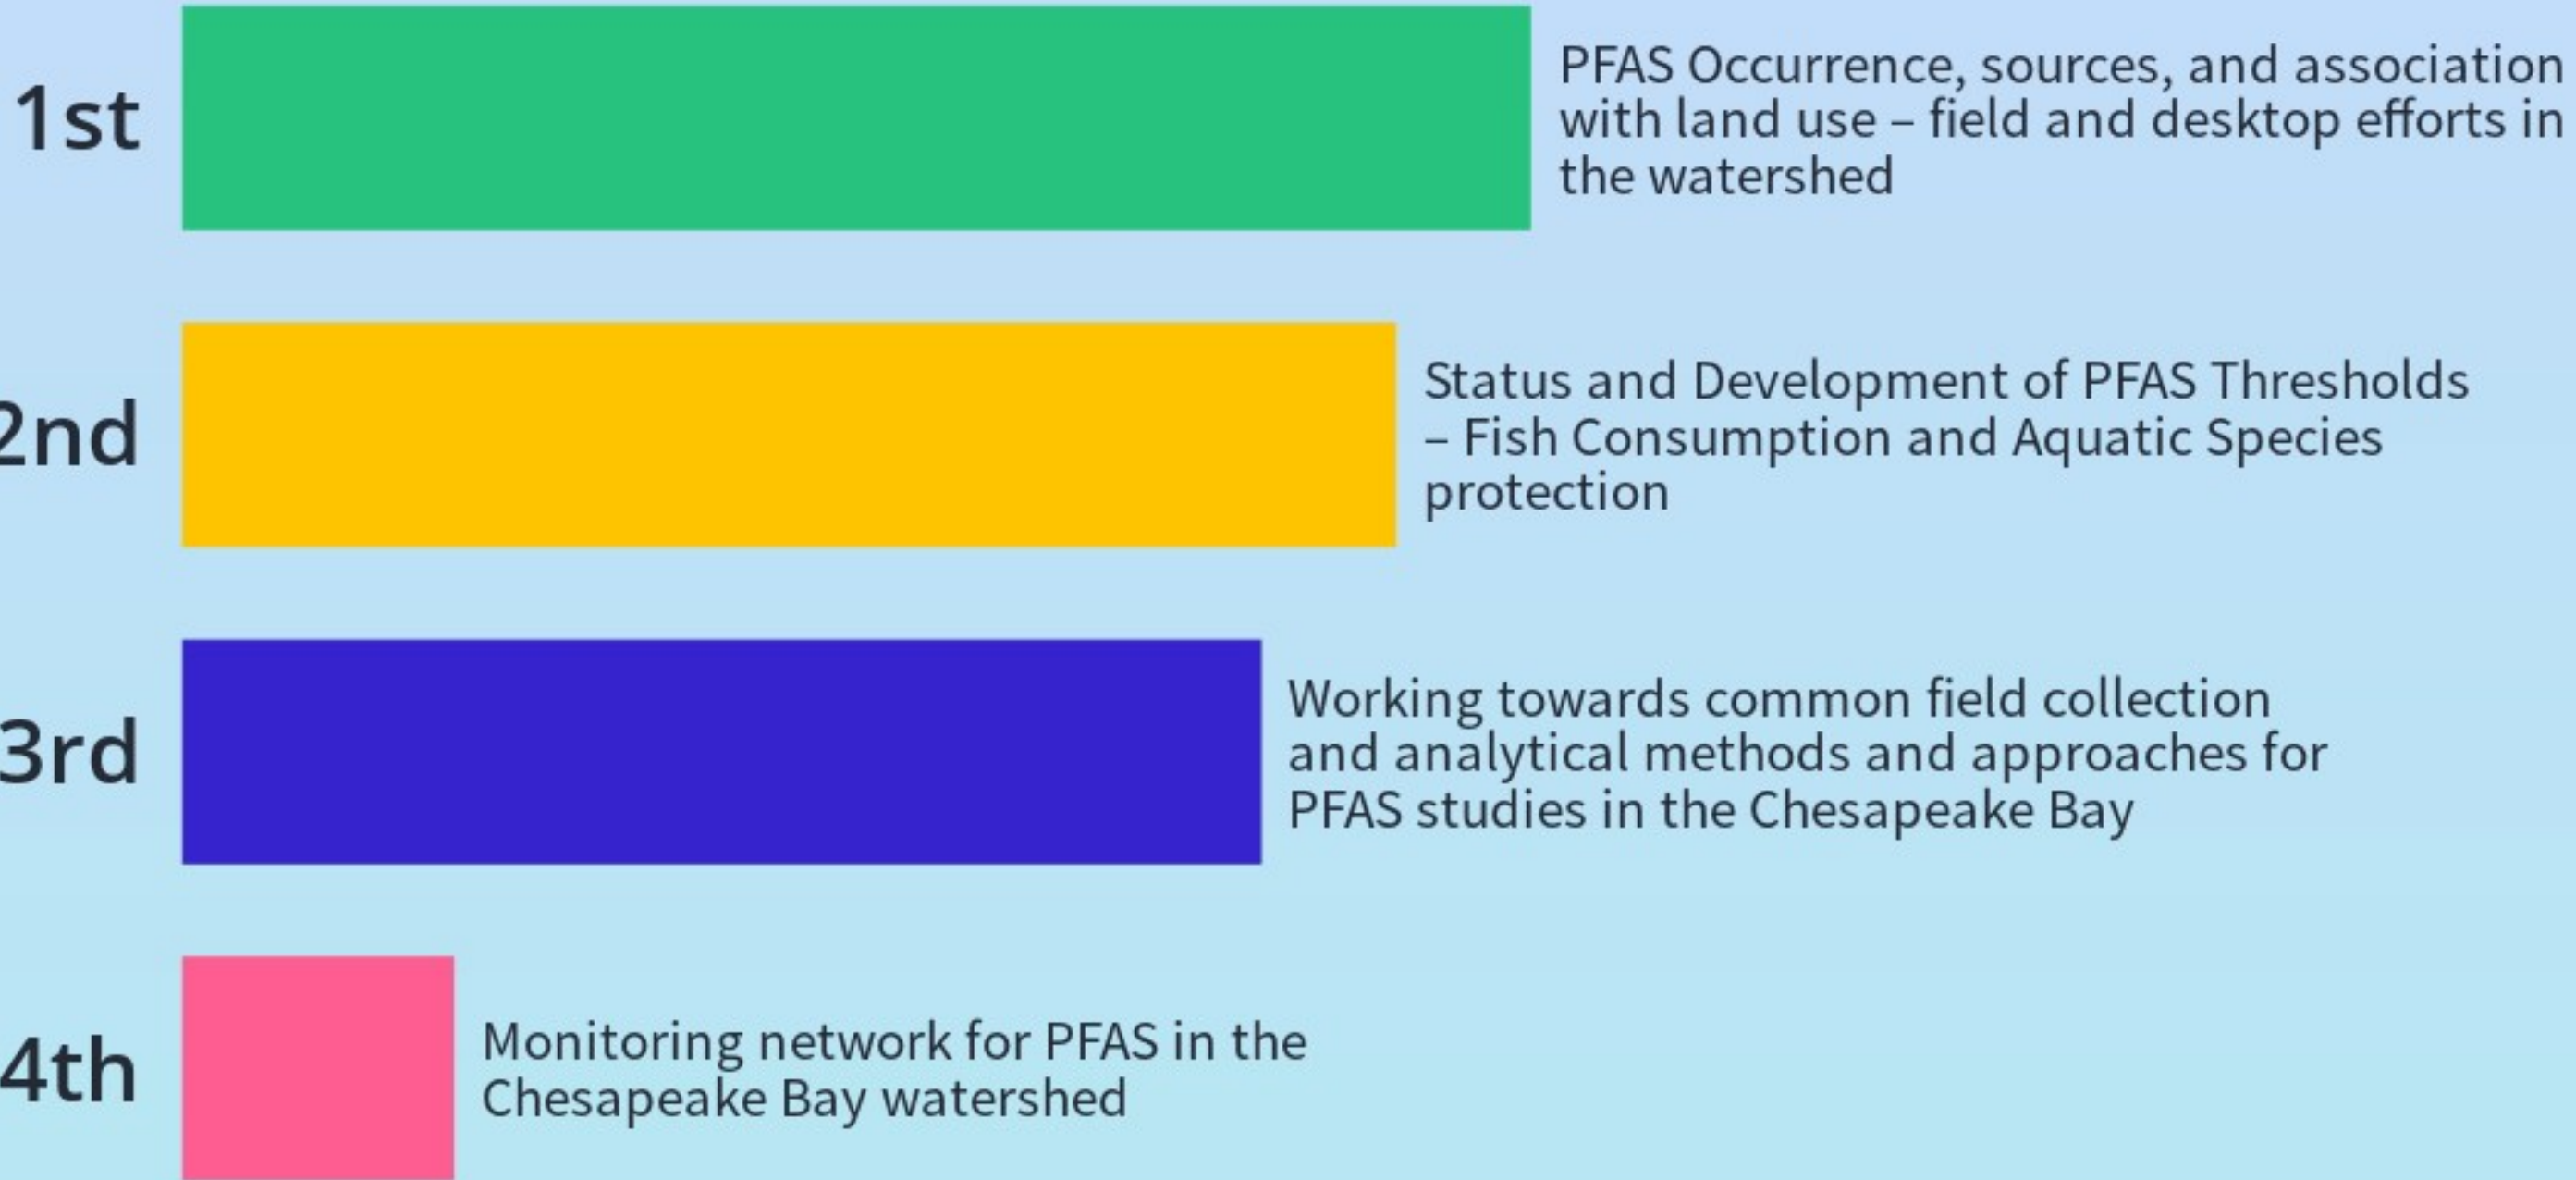

Is there a priority topic you would like to cover in 2023 that was not described in the previous question?

Remedial technology science and development

PFAS in biosolids

Yes biosolids!!

When do you want to discuss each topic? Please rank them below. 1st = February; 4th = November.

Proposed Framework for Quarterly PFAS meetings

- Introduction, meeting goals
- 1-2 short technical presentations on the topic from topical experts
 - Round robin on relevant work ongoing in the watershed (< 5 min updates from jurisdictions and federal agencies, academic)
 - Discussion and Next steps

If you have any feedback on the proposed framework on the previous slide, please note it here.
