|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 12:00 | Welcome and introduction | Jeremy Hanson |
| 12:10 | Summary of Panel Recommendations | Tim Sexton |
| 12:30 | USGS Irrigation Study
Mark Nardi, USGS, will present and discuss recently published findings from <i>Monitoring the water-quality response of agricultural conservation practices in the Bucks Branch watershed, Sussex County, Delaware, 2014–16</i> , regarding the relationship between irrigation on corn and local water quality. | Mark Nardi |
| 1:00 | University of Delaware Irrigation Study
Amy Shober, UD, will present the results from a four-year University of Delaware (UD) research project. The UD team evaluated several irrigation and fertilization treatments at the Warrington Research Irrigation Farm near Harbeson, DE to determine how these treatments affected both water and nitrogen use efficiency. James Adkins, UD, will provide clarity regarding field implementation and execution of the research projects. | Amy Shober |
| 1:30 | Open Discussion, Q&A
Meeting attendees in-person and on the phone may provide questions and comments to the Expert Panel and presenters at this time. | All |
| 2:00 | Adjourn | |

Frequently Asked Questions:

Is registration required to participate? No, but it is helpful for planning and follow-up purposes so please RSVP if possible. If unable to RSVP you are still very welcome to join in-person or remotely. Please use this link to RSVP: <https://goo.gl/forms/YFhUEO0eBmQsDQZU2>

Will the slides and other materials be posted online? Yes. All information and materials can be found on the CBP calendar entry: <https://bit.ly/2Fv357w>. Any new/updated materials not posted prior to the meeting will be posted shortly afterward.

Will this webcast be recorded and posted for later viewing? Yes. The recording will be available on the CBP calendar page within 1-2 business days.

I will not have computer access, but I want to participate and listen to the live session. Can I dial-in for the audio only? Yes. **Dial-in:** +1 929 436 2866. When prompted, enter the **Meeting ID:** 506 114 411

Experiencing technical issues with Zoom? If this is your first experience with Zoom, you may wish to try a “test” room in advance: <https://zoom.us/test>. You can find detailed assistance at the Zoom support center: <https://support.zoom.us/hc/en-us>
