CBPO Location: 200 Harry S. Truman Parkway Annapolis, MD 21401

*If you are joining by webinar, please open the webinar first, then dial in.

AGENDA

- 1:30 AM Welcome and Meeting Overview – Co-Chair Mark Bennett (USGS) and Erik Meyers (The Conservation Fund)**
- Summarize ideas and input from January Cross-GIT In Person Meeting.
 - Provide more examples of how indicators can connect with the goals and outcomes within the CBP.
 - Showcase additional data that may be used for indicators.
- 1:40 AM Climate Resiliency Goals and Indicator Framework – Julie Reichert-Nguyen (NOAA)**
- Julie will present the proposed draft framework for future climate indicator development for feedback by CRWG and how it relates to the overall CBP indicator framework.
- 2:00 AM Climate Indicator Follow-up Discussion – Cuiyin Wu (CRC)**
- Cuiyin will summarize the ideas and input from the last meeting. She will also go over the Mentimeter results and look for feedback on which indicators to move forward with first this year.
- 2:20 AM Healthy Watersheds –Nora Jackson (CRC)**
- Nora will present on climate metrics of interest related to the healthy watersheds goals and outcomes and will provide an example of how it can be applied to the proposed climate indicator framework while answering a management question.
- 2:50 AM Climate Variability and Change – Philip Stratton**
- Philip is a PhD student at the University of Maryland College Park and works at the Maryland State Climatologist Office. He will provide information on the current effects of climate change through the data available at his office. The

CRWG may consider using this data for their own work and how to incorporate it into future CRWG indicators.

3:20 AM

Announcements – Julie Reichert-Nguyen, (NOAA)

- Climate Resiliency Workgroup internship announcements. Please share with your networks.
 - NOAA Chesapeake Bay Summer Internship Program in partnership with the Chesapeake Research Consortium (applications due February 20, 2020): [Climate Change Indicator Development Support](#)
 - C-StREAM (applications due February 15, 2020): [GIS Analysis of Flooding and Sea Level Rise Impacts on Land Use and Communities](#)
- February 27, 2020: Taking Nature Black 1-day conference. The conference will include thought-provoking speaker presentations and panels with regional and national environmental leaders and feature discussions of climate change, environmental justice, and environmental joy! <https://anshome.org/taking-nature-black/>
