Planting the Future

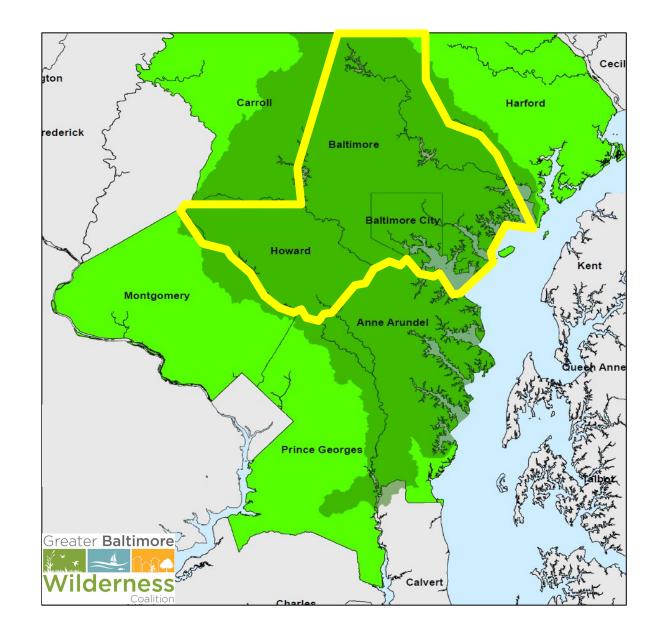

75,000

25,000

Benefits of Urban Trees

Research has linked the presence of urban trees to...

PROTECTING BIODIVERSITY

including habitat for migrating birds and pollinators

REDUCING OBESITY LEVELS

by increasing physical activity including walking and cycling

MANAGING STORMWATER,

keeping pollutants out of waterways, and reducing urban flooding

REDUCING RATES

of cardiac disease, strokes, and

asthma due to improved air quality

COOLING city streets by 2-4° F, reducing deaths from heat and cutting energy use

INCREASING

neighborhood property values

FILTERING up to a third of fine particle pollutants within 300 yards of a tree

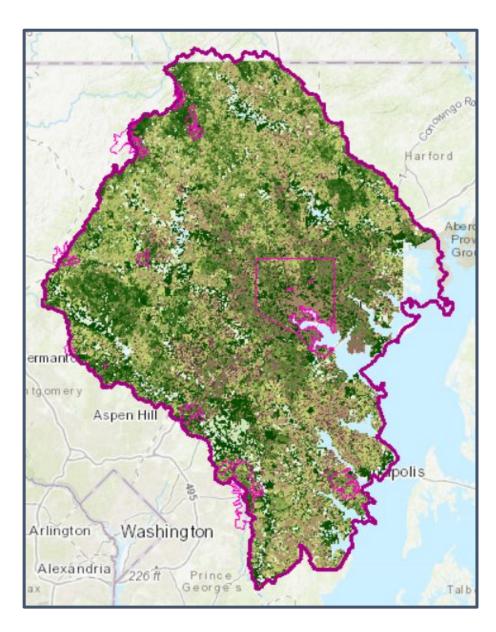

REDUCING STRESS by helping interrupt thought patterns that lead to anxiety and depression

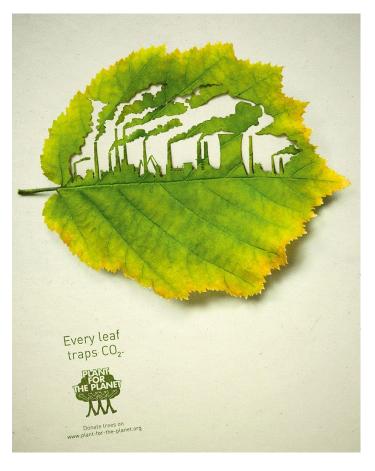

Collaboration & Trust

- **Finance & Structure** Review and refine Coalition structure, policies and procedures, financial plan, etc.
- GI Mapping & Tracking Developing a system to map, track, and value regional GI opportunities and projects
- Membership & Communication Develop most effective ways to recruit and effectively communicate with members
- Nature City Forum Annual event planning including venue, theme, partners, advertising, etc.
- Workforce Development Identifying green workforce development programs and funders, and exploring opportunities to unite and expand efforts
- Planting the Future Determine best strategies to implement and amplify program, track and share results, maximize MS4 credits, build additional funding strategies, etc.
