# QPM Ground Rules for Discussion & Wrap Up

- We are looking for **input**, not formal commitments.
- Use the **Raise Hand** feature in your webinar to be called upon for open discussion.
  - If you wish to answer and add onto the current open discussion, use the **party hat icon to join the current discussion thread** (versus being put in the queue to provide a response later.)
  - **Reserve comments in the Chat** to provide resources or information that add context to the open discussions.
- Let **multiple voices** be heard.
- **Keep discussions focused**; tangential discussions will be placed in a parking lot.
- **Be responsive to getting agreement on the action items and next steps** during our wrap up period.
  - Agree on the **intent vs. word smithing** of the of action item.
  - **Commit to address the requests in a timely manner**; work to identify the action, lead and due dates to address requests.

# The Way Forward with the QPM

---

There is flexibility in the QPM process that the Outcome Leads should be aware of.

Keep the intent of the Outcome review slides, but can modify

We continue to make QPM improvements as small pivots.

We are in the 3<sup>rd</sup> cycle of SRS

The MB is going through a prioritization of Outcomes and considering how to improve MB meetings
