

**Goal Team Chairs and Leadership Quarterly Meeting**

**June 30, 2021**

<https://umces.webex.com/umces/j.php?MTID=m8907fa4ddabcfcd966c85205ad4b253>

**Meeting number: 120 982 7123 Password: 4KPncUmbX85**

**Join by phone +1-408-418-9388 United States Toll Access code: 120 982 7123**

**Objective: A conversation with the modeling team about: the next phase of the watershed and estuarine models; how the Water Quality goal team, STAC and PSC set priority considerations for the model; ongoing efforts to incorporate ecosystem service and co-benefit values in CAST; and how we best reflect priorities and considerations from the other goal teams given limited resources and staff capacity.**

- 9:30 am Welcome and meeting plan – Kristin Saunders, UMCES**
- 9:45 am Watershed model plans – Gary Shenk, USGS**
- 10:05 am Questions**
- 10:15 am Estuarine model plans – Lewis Linker, EPA**
- 10:40 am Questions**
- 10:50 am RESES Ecosystem Services Valuation Project – Ryann Rossi and Vanessa Van Note, EPA**
- 11:05 am Break**
- 11:10 am Facilitated discussion – consider these questions in preparation for our conversation:**
- What living resource or other outcome considerations are missing but critical to your success?**
- Will the unstructured grid approach give us what we need for shallow water gaps?**
- Are there analysts, researchers or subject matter experts you know who can add capacity and collaborate with our modeling team?**
- Are there data points, studies or a body of work available that might lend themselves to translation and incorporation into the model?**
- What do you need that you are not currently getting in terms of representation in modeling or CAST?**
- 12:00 noon Open Microphone – What is on your mind?**
- This is an opportunity to problem-solve, ask for help, or even vent.**
- 12:30 pm Adjourn**
