Color on the Creek : establish a large public water garden to improve the aesthetics and water quality in Carroll Creek

**Conversations and city approval 7/2012**

**Test Garden 8/2012**

A vibrant, lush garden scene featuring a traditional wooden bridge with a curved railing spanning a small pond. The bridge is surrounded by dense greenery, including weeping willow trees with long, drooping branches and various flowering plants, including purple wisteria. The water in the pond reflects the surrounding foliage. The overall atmosphere is serene and beautiful.
