

Jurisdictions are asked to do the following:

- 1) Review Phase 6 BMPs using CAST Summary BMPs and NEIEN error reports.
- 2) Review Phase 6 construction and harvested forest acres, and provide updates for 2014 through 2017 by **March 1, 2018**. Data should include the following information:
 - a. County
 - b. Acres of harvested forest or construction
 - c. If construction, then indicate if it occurred within CSS or MS4. If unknown, then acres will be distributed proportionally across each land use group.
 - d. Indicate if the acres represent the CBW portion of the county, or the entire county.
