

# Delmarva Restoration and Conservation Network

Chesapeake Bay Program Habitat GIT Meeting  
May 21, 2019

# Economics of Delmarva's Natural Lands, Farmland, and Open Space\*

- Outdoor enthusiasts spend up to \$3.9 billion per year supporting 27,900 jobs;
- 7,000 farms yield \$2.8 billion in farm products per year on 1.3 million acres;
- Commercial fishing in the Chesapeake Bay is worth \$300 million per year;
- Delmarva Peninsula fishery leads the nation in total weight of catch;
- All told, contributes over \$15 billion in ecological Services annually, supporting important Industries like fisheries and tourism;
- Conservation, aquaculture, and conservation visitor spending contributed \$270 million dollars to Virginia's Delmarva in 2016.

\*A 2012 study on the economics of natural areas (including farmland) on Delmarva by Southwick Associates & a socio-economic study by the Virginia Coastal Zone Management Program.

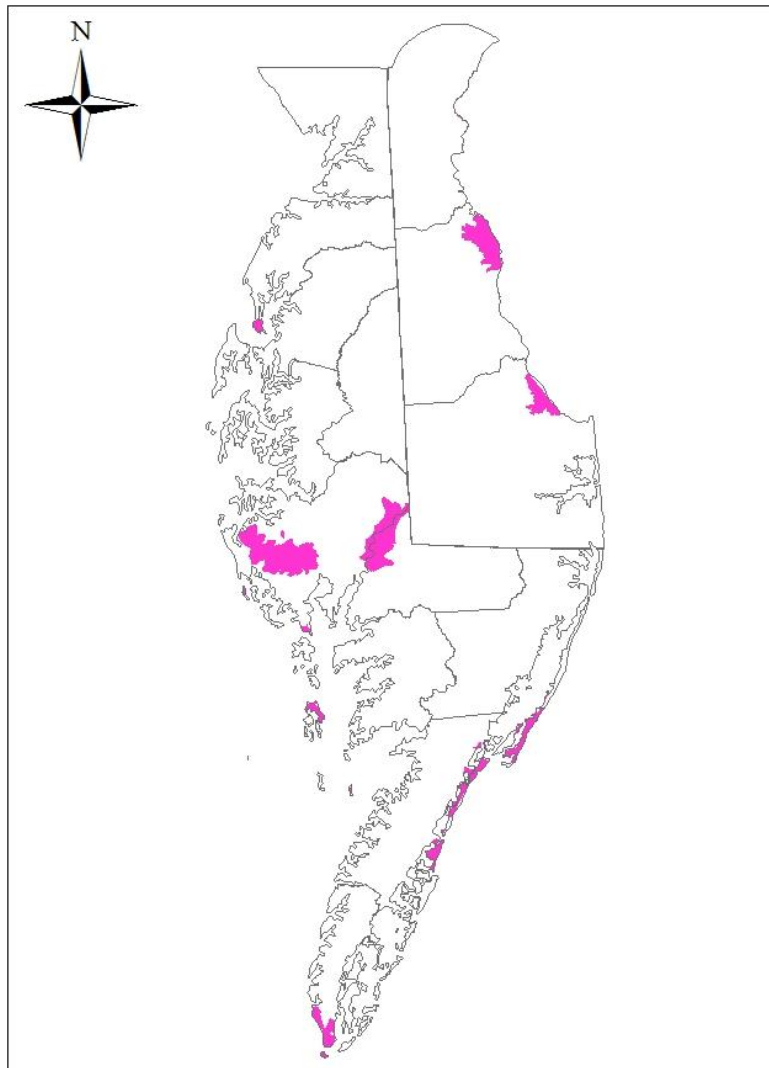

# TMDL

- Phase III WIP – States working with Key Local Partners – Counties
- Delmarva Restoration & Conservation Network Strategic Action Plan to help implement & fund BMPs.

## Delmarva Restoration and Conservation Network Probability of Development by 2080

0 10 20 40 Miles

# Strategic Action Plan

- Protect the Delmarva countryside we all love.
- What needs to be done and where?
- How we will work together to get support and funding for voluntary restoration and conservation on Delmarva.

# Members of the Growing Delmarva Restoration and Conservation Network

- Core Team: 24 People from 11 Organizations
- Extended Team: 49 People from 18 Organizations
- Total: 72 People from 24 Organizations
  - Federal
  - State
  - NGO
  - Local: Counties

# **The Delmarva Restoration and Conservation Network Vision, Mission, and Goals**

## **Mission**

To restore and conserve Delmarva's landscapes, waterways, and shorelines that are special to its people, fundamental to its economy, and vital for its native fish, wildlife, and plants.

## **Vision**

We envision a Delmarva where native fish and wildlife thrive; the fabric of healthy natural and working lands and waters enrich the lives of those who live, work, and play on the land; and rich forestlands and coastal areas support and sustain present and future generations.

## **Delmarva Restoration and Conservation Network Goals**

**Goal 1** – Shape and support a network of cooperative alliances among the diversity of people, governments, organizations, and industries that rely on Delmarva’s natural resources.

**Goal 2** – Enhance the Sustainability of resource-based industries -- including fisheries, agriculture, forest products, tourism, and outdoor recreation -- that enable the economies of Delmarva communities to thrive.

**Goal 3** - Identify, conserve, restore, and manage the vital network of working and natural lands and waters that support a diversity of habitats for native fish and wildlife, and maintain resiliency in the face of future development and climate change for present and future generations.

# Delmarva Restoration and Conservation Network

## Proposed Schedule

- **March 2017** – Initial meetings with practitioners in each state
- **September 2017 – April 2019** – Core Team meets monthly to come to consensus on:
  - Goals & Objectives
  - Communications and Outreach Strategy
  - Representative, Ecologically & Economically Important Species
  - Data Sources and Tools
- **April 2019 – July 2019** - Core Team prepares Draft Action Plan
- **July 2019** – Draft Action Plan shared with Extended Team for review and comment.
- **September 2019** – Action Plan Finalized

# Local Benefits

- Help Meet TMDL Targets
- Reduce Flooding and Protect Infrastructure by restoring/protecting streams, floodplains, and wetlands.
- Increase Hunting and Fishing: Improve public access, restore and protect forests, wetlands, and streams.
- Deliver New Funds: Seek federal, state, and NGO grants (Land and Water Conservation Fund, Farm Bill, others)
- Strengthen the Local Economy: Boost tourism and outdoor recreation jobs.
- Sustain and Diversify farm and forest product industries

# Protecting the Rural Character of the Delmarva We All Love

- Quality of Life
- Clean drinking Water
- Clean streams, rivers, Chesapeake Bay
- Meeting TMDLs for Chesapeake Bay
- Working Farms and Forests
- Flourishing Towns
- Thriving Sustainable Economy
- Fish and Wildlife Habitat
- Places to Hunt and Fish
- Outdoor Recreation
- Good Jobs
- Private and Public Funding and Investment in Delmarva
- Healthy Rivers and Streams Supporting a Burgeoning Commercial Fishery
- A Great Place to Live for Present and Future Generations of Delmarva Citizens!
