

Normand Goulet, Northern Virginia Regional Commission (NVRC)

Normand Goulet is the Director for the Northern Virginia Regional Commissions Division of Environmental and Resiliency Planning. He joined the Commission in 1991 with a focus on water resources management and is responsible for overseeing the Commissions environmental staff and programs as well as managing the regional stormwater, MS4 and Chesapeake Bay Programs. He frequently participates in the Commonwealths regulatory and technical advisory groups attempting to advance the regions technical, policy and regulatory prospective. He has been active in the Chesapeake Bay Program since the mid 1990's and is currently the Chairman for the Chesapeake Bay Programs' Urban Stormwater Workgroup (USWG), a At-Large representative to the Watershed Technical Workgroup (WTWG) and is an advisor to the Water Quality Goal Implementation Team (WQGIT).
