

AGENDA

Wastewater Treatment Workgroup (WWTWG) Teleconference Tuesday, Sept 1st, 2020 10:00 AM – 11:30 AM

Webinar*: <https://umces.webex.com/umces/j.php?MTID=me7ee08a9158421f67e8ebcb3faa50a84>

Phone: +1-408-418-9388 United States Toll

Access Code/Meeting ID: 120 380 8614

Password: Ya8aBX36tpr

Calendar Page: [Link](#)

- 10:00 AM **Welcome, Introductions, and Announcements** – Matt Ries (DC Water), Chair
- Roll Call
 - Brief Introductions
 - **Announcement:** Water Quality Goal Implementation Team (WQGIT) leadership team is also seeking input from its source sector workgroups on other issues and needs they would like to see addressed in either CAST 2021 or future versions of the model. Send feedback on items, updates, and/or actions they would like to see addressed in future versions of CAST by **COB September 9th** to Whitney Ahead (aheadw@chesapeake.org) and Matt Ries (Matt.Ries@dcwater.com).
- 10:10 AM **Brief Overview of Workgroup Member Feedback**
- Matt Ries and Whitney Ahead met with several workgroup members and received a range of feedback on agenda topics and the direction of the workgroup
 - Please share your feedback by scheduling a meeting slot in the [Doodle Poll](#) as soon as possible
- 10:20 AM **Biosolids Reporting for the CAST21 Model** – Jeff Sweeney (EPA)
- Jeff Sweeney will discuss biosolids reporting for the CAST21 Model. Biosolids have been an input to the model for the past few versions. However, new information from jurisdiction has largely not been provided since 2013. The Chesapeake Bay Program Office requests annual updates on biosolids and is open to discussing any barriers to providing this information to ensure consistent reporting.
- 10:45 AM **Characterizing CSOs** – Gary Shenk (USGS Chesapeake Bay Program Office)
- Gary Shenk will provide background on how CSOs operate in the model including load calculations
 - Workgroup members are requested to share how their CSOs are characterized and how flows are being measured.
- 11:05 AM **Point Source Data Submission Updates** – Megan Thyng (EPA)

- Megan Thyng will provide updates to the Point Source Data Submission Model

11:15 AM [Climate Allocation Decisions](#) - Ed Dunne (DOEE)

- Ed Dunne will review the climate discussions from the Water Quality Goal Implementation Team (WQGIT) meeting on 08/24, including allocation options that are being thought about for positioning in 2035--the NPS allocation option or the NPS and PS allocation option.
- Discussion amongst workgroup members about future forecasting beyond 2025 and how utilities can plan accordingly

11:30 AM **Meeting Adjourns**
