

Toxic Contaminant Workgroup Meeting

06.08.2022

Co- Chair: Greg Allen & Emily Majcher
Staffer: Hilary Swartwood

Given the outcomes of the TMDL roundtable, what new/addition efforts should TCW prioritize related to PCB TMDL implementation in the watershed?

How should TCW facilitate PFAS science and policy updates in the watershed?

Seperate mini workshops plus regular agenda items

Set aside existing TCW meeting time, quarterly, for 2hrs to focus on PFAS

Having a standing (quarterly?) PFAS session within normal calls sounds like a good idea.

quarterly within TCW

Be the primary voice and coordinator for utilization of consistent analytical methods and data presentation across the jurisdictions. As needed.

Set aside time each qtr. would be beneficial for the TCW.

Occasional invites to regulators

Is yrack down different for PFAS vs PCBs?

Scheduled jurisdiction updates to share lessons learned (or learning)
