

# Wetlands Outcome Attainability Workshops

Megan Ossmann  
Wetland Workgroup Staffer

Wetland Workgroup Meeting - October 19<sup>th</sup>, 2021

# The Issue

---

Outcome attainability has become an important topic of conversation at the Management Board and PSC level.

---

Wetland Outcome is one of a few outcomes that is significantly off-trajectory.

---

To significantly improve the rate of progress requires program managers and policy makers along with the SMEs currently on the Workgroup.

# Planned approach

- Two one-day facilitated workshops in early 2022: Tidal and Nontidal
- Use **facilitated approaches** to discuss barriers and identify solutions
- Ensure the right people are in attendance: WG members, program managers, MB/PSC members, **decisionmakers who are in control of budgets**
- Develop draft options and recommendations for desired outcomes
- Provide draft options and recommendations to the Management Board and Principal's Staff Committee for action

# Steering Committee

---

Megan Ossmann, *HGIT and WWG Staffer*

---

Chris Guy, *HGIT Coordinator*

---

Dimitri Rucker, *USFWS RAY Diversity Fellow*

---

Amy Jacobs, *TNC*

---

Nikki Rovner, *TNC*

---

Jake McPherson, *DU*

---

Sherry Witt, *Facilitator*

# Current Progress

Convene steering committee and discuss planning process

Develop a description of key barriers to increasing rate of implementation  
Develop Purpose and Outcome Statements

Review ideas for increasing the rate of implementation from the Biennial SRS meeting  
Review funding allocations for federal and state programs

Develop an agenda to achieve the desired outcomes

Identify and invite audience participants
