

Chesapeake Bay Program

**Chesapeake Bay Program  
Watershed Technical Workgroup (WTWG)  
Webex Meeting Chat Summary\***

Thursday, November 5, 2020

10:00 AM to 12:00 PM

Calendar Page: [Link](#)

*\*Chat messages were edited to provide clarity and correct grammatical errors. Messages that were irrelevant to preserving the questions and discussion below were removed (ex. reminding people to mute phones, letting participants know of call interference, etc.). There may be overlap between the chat and the WTWG Meeting Minutes. Refer the WTWG September Meeting Minutes for more details and the Action and Decisions.*

**WTWG WEBEX MEETING CHAT SUMMARY**

from Loretta Collins to everyone: 10:06 AM

Oct AgWG material:

[https://www.chesapeakebay.net/what/event/agriculture\\_workgroup\\_conference\\_call\\_october\\_2020](https://www.chesapeakebay.net/what/event/agriculture_workgroup_conference_call_october_2020)

from Kevin Du Bois, DoD CBP to everyone: 10:19 AM

Does the original land use have to be a building or paved? Can you convert compacted gravel surfaces or soils?

from Olivia Devereux to everyone: 10:31 AM

Gravel surfaces are considered barren lands and are pervious. Soil is definitely pervious.

from Kevin Du Bois, DoD CBP to everyone: 10:32 AM

I'm thinking like a building demo site that remains vacant for a period of time.

from Matt English DC to everyone: 10:34 AM

Could you clarify if there is a backout with the ICR due to new imagery?

from Olivia Devereux to everyone: 10:35 AM

There is no backout for efficiency BMPs. This is proposed as an efficiency BMP.

from Matt English DC to everyone: 10:35 AM

Thanks Olivia! Can you share what the statement about imagery on the current slide is getting at then?

from Kevin Du Bois, DoD CBP to everyone: 10:36 AM

Where can we find the memo? I don't see it on the WTWG website.

from Olivia Devereux to everyone: 10:37 AM

Matt: I believe that was referring to the original BMP.

from Matt English DC to everyone: 10:38 AM

I see. Thanks!

from Olivia Devereux to everyone: 10:42 AM

The memo is on the WTWG site and is named ICR BMP Cleanup Memo, second to last item. Hit ctrl F5 to refresh the site if you do not see it.

from Matt English DC to everyone: 10:43 AM

What is the credit life for ICD?

from Olivia Devereux to everyone: 10:43 AM

model credit life is 5 years

from Swartwood Hilary to everyone: 10:46 AM

The CBP website has been experiencing technical difficulties this week so the Memo may not be showing up on the WTWG calendar page. If you would like a copy of the Impervious Cover Memo, send me an email ([swartwood.hilary@epa.gov](mailto:swartwood.hilary@epa.gov)) and I am happy to send it along.

from Matt English DC to everyone: 10:48 AM

Should we add a reminder in the memo that this BMP can be stacked with Conservation Landscaping?

from Sarah Lane to everyone: 10:49 AM

And stacked with canopy?

from Kevin Du Bois, DoD CBP to everyone: 10:49 AM

yes

from Sarah Lane to everyone: 10:49 AM

Right, I meant reminder in memo

from Matt English DC to everyone: 10:52 AM

I feel like the narrative for conservation landscaping describes a change from grass to meadow, not from impervious to meadow

from Pat Thompson to everyone: 11:02 AM

CAST 21 Task 7 description should be revised to clarify that there are two layer CAFO locations: Gettysburg in Adams County and Spring Grove in York County. Both are significant.

from Olivia Devereux to everyone: 11:05 AM

Pat: Please work with Mark Dubin. He is working on those.

from Ted Tesler to everyone: 11:26 AM

NRCS reports "systems"

from Lori Brown to everyone: 12:05 PM

Templates would be great. Thank you.
